

# ESCENE Communication Co, LTD.

EHS12 Technical Datasheet

	Receiver	Microphone
Resistance	$300 \Omega \pm 20\%$	$1.0K \Omega$
Sensitivity	105dB	$-42Db \pm 2dB$
Working Frequency	300~4000HZ	40~20000HZ
Maximum Output	20mW	—
Current Consumption	—	$800 \mu A$

## Features:

1. Single earpieces headband
2. Soft leatherette ear cushion, comfort for wearing
3. Durable, light-weight
4. Adjustable headband, flexible
5. Noise cancelling
6. Quick disconnect feature for added freedom
7. Use a QD cable, suitable for multi use

> Monaural Contact headset

> High-clear voice communication, voice quality clear and soft, to protect your hearing

> European and American shape style, durable structure design

> Call Center standard headsets solution priority

> Advanced noise-cancelling microphone, an effective solution to shield 80 percent of background noise

> Provide quick plug cable (QD), for headsets protection and life extension

> Distribution of sponge headset cover and microphone cover
